SUMMARY

Full Stack Developer with proven success creating MERN stack web applications individually and in groups using Agile. Creative, customer-centric problem solver driven to succeed at any task. Adaptable, able to learn new technologies and methodologies quickly. Additional experience in finance and customer-facing roles. Strong communication skills.

TECHNICAL SKILLS

HTML5, CSS3, jQuery, Bootstrap, JavaScript, Node.js, Express.js, Handlebars, SQL, Mongo.db, React.js, API interactions, Git

PROJECTS

Note-Takin' — https://note-takin.herokuapp.com

A todo app written in Node.js with an Express server and express.Routes() that makes.ajax calls to local json file. My first express app was challenging, and I worked hard at writing my javascript as lean as I could.

CodeQuiz — https://pierre8237.github.io/homework-quiz

A computer coding quiz — HTML, CSS and Bootstrap, Jquery and Javascript. I spent long hours console logging which paid off quite well. The app was improved by a refactor of the UI. I am proud of the coding I did here.

Dyonisus — https://dionysus2.herokuapp.com

MERN stack, with React Router, React Bootstrap, axios, and mongoose. Wine and cheese pairing app featuring Yelp's Fusion API for searching local wineries, weather API, and noSQL for storing recommended pairings of wine and cheese..

WORK EXPERIENCE

Uber Technologies — *Driver*
November 2016 - March 2020

Gave near 5000 rideshares through-out Connecticut. Flexible hours enabled me to complete my bachelor's degree online while meeting and conversing with a wide range people. Applied and developed soft-skills and the ability to make quick decisions.

Roger Sherman Inn, New Canaan, CT — *Head Bartender*
August 2008 - December 2009, March 2011 - June 2013

Head bartender of a busy New Canaan landmark. Solely responsible for all aspects of the bar, delivering requisite service to a discerning clientele as part of a larger team. Required long hours and dedication, and constant communication.

Leafstone Staffing / UBS — Stamford, Connecticut / New York, New York — *Temporary Roles*, *Legal /Compliance*
August 2008 - March 2011

Fulfilled a variety of roles in the legal department of a global Wealth manager and investment bank. Started out filing documents, promoted to a junior position in the compliance department.

EDUCATION

UCONN Coding Bootcamp, Stamford — *Full stack development certificate*
March 2020 - October 2020

Introduction to the full MERN stack. Completed three group projects, completed homework assignments in an online format meeting via Zoom during COVID-19.

Ball State University, Muncie, IN — *Bachelor's degree, general studies*
January 2016 - June 2019

Coursework in clinical healthcare, information systems and computer programming.
